By car

Many road constructions in Karlsruhe complicate traveling to the Karlsruhe Institute of Technology (KIT). As the detours may change daily, we strongly recommend the use of a car navigation system, programmed with one of the following destinations.

Without navigation system please follow the signs to the (soccer) "Stadium" and "KIT Campus Süd".

The conference venue (Tulla classroom) is located inside the KIT campus area, which has limited car traffic access **to authorized personnel only**. Thus, please use the **parking possibilities outside the campus area (see map)**.

In Karlsruhe

Karlsruhe has an excellent public transportation network. You can also get around by taxi, however. If you live in the city centre, taking the streetcar is highly recommended (some hotels offer free tickets for their guests). During regular business hours a streetcar passes by every 2 to 10 minutes. Public transportation in Karlsruhe is managed by the local transport authority “Karlsruher Verkehrsverbund” (KVV). Therefore you can use the same kinds of tickets for all streetcars and buses.
